Dear "Ding" Darling Wildlife Society,

On behalf of the entire student body and staff at Harns Marsh Elementary, I would like to truly thank you for the amazing Wildlife on Wheels (WoW) experience your team provided. Your commitment to bringing environmental education to the students of Lee County is so vital in sustaining our natural, precious resources.

The following comments are from students and staff that experienced WoW.

"I liked the one where we pulled out animals and tried to guess the name and where it lived. I liked it because I like learning how animals work." – Ethan 1st Grade

"My students really enjoyed the WoW field trip. I loved how hands-on this experience was because it kept them completely engaged! The people that came were amazing with the students and made them feel at ease to ask questions. I hope we have them back next year!" – Ms. Drye 3rd Grade Teacher

"One thing I enjoyed during the WoW presentation was when we went inside the truck and looked for certain animals like mammals and reptiles and birds." – Jabari 5th Grade

Once again, thank you for taking the time to work with our students and teach them a love of nature. I know this experience will remain with them for the rest of their lives and it will be a learning adventure they will never forget. Keep up the great work you are doing in our community.

Thank you

Jason Peters

Assistant Principal - HME
